The individuals on the attached listing are essentially negative as regards any employment/consultant or proprietary hire association with the Agency. The Office of Security reports quite a bit of activity concerning [REDACTED]

[REDACTED] Going back to 1956 he was granted clearances for a briefing on a sensitive Agency project. It appears that the various clearances granted up to 1969 were for briefing, liaison, etc. I can find no pay/employee relationship.

The names which we removed from the attached listing should be cleared up very shortly. I am awaiting more information from CCS.
